

Click Bed Twist

Clickbed Twist

Is it possible to combine a bed, a library and a place for rtv in one piece of furniture? Here is the only model of a revolving bed that combines such different functionalities. In the living space is a bookcase with space for electronics, which turns into a full-size bed when rotated 180 degrees. Additional advantage is the possibility of individual arrangement of the bookcase. Pictured here with Wall headrest.

	Key	140X200	160X200
W	Width of the structure Szerokość zabudowy	1774 mm	1974 mm
